In Thrall

By Jane DeLynn

Semiotext(e): 312 pages, \$18

First published in 1982, *Semiotext(e)* brings DeLynn’s coming-of-age tale of lesbian longing back into print this fall with an introduction by Colm Tóibín. The “jarring accuracy” with which DeLynn writes about 16-year-old Lynn yearning for her English teacher, while dating boys and making homophobic jokes with her friends, moves “*In Thrall*” up to the top of our TBR pile. — J.F.
